Hours: 37.5hrs per week spread over 4 or 5 days

Field Worker \$21-\$22/hr casual (based on 38hr week). Or full time contract equivalent.

Close date: 27th November 2009

About Bushcare

Bushcare Services is a progressive Natural Area Restoration Company expanding rapidly throughout South East Queensland. Our core focus is rehabilitating natural areas through bush regeneration, weed control and revegetation. We are currently looking to build on our capabilities in the specialized area of track repairs and construction. We currently have opportunities working with State and Local Government clients to undertake this specialized work.

Our Successful Candidate

We seek a motivated, punctual, flexible and hard working individual to join our existing bushland track team. If you enjoy working outdoors in bushland areas and are committed to hard work and have the relevant skills – this may be your opportunity.

Successful applicants will have proven hands on experience having demonstrated similar work and ethical considerations working in sensitive environments.

Duties: Work as part of a team to construct or repair multi-use tracks in bushland environments. Bushcare Services construct tracks to National Parks standard classification system. Tracks may be fully constructed with imported and pre-fabricated materials or using bush resources to achieve the outcome.

The candidate should be prepared to work in challenging bushland environments, sometimes in a remote location, and be prepared to walk equipment/ materials into the work site.

The desired candidate will have a practical and 'hands on' aptitude. They will have come from a landscaping or similar trade background and be experienced with rock retaining, installing treads, light timber construction/carpentry and repairing drainage.

Note that the work is physically demanding and that applicants should have a high level of health and fitness and to disclose any pre-existing injuries or conditions that may impact on the job duties. We reserve the right to request a medical to undertake this work.

Selection Criteria:

- Ability to work as part of a team.
- Experience with rock pitching and dry walling, retaining, benching, drainage, installation of treads.
- Experience in a trade that would be relevant for the work – e.g. landscaping, carpentry.
- Physically fit and hard working
- OHS, blue card and first aid training.

Desirable Advantage:

- Relevant trade certificate, builders licence, machinery tickets including excavator and skid steer.
- Tertiary education in Natural Resource Management field

Applications:

1. Please address individual selection criteria with a brief and relevant response. If you do not meet all criteria, please indicate which ones, how you seek to attain the skill and it will be considered.
2. Provide an updated personal resume with at least 2 current referees.
